7:140 Search and Seizure

To maintain order and security in the schools, school authorities are authorized to conduct reasonable searches of school property and equipment, as well as of students and their personal effects. "*School authorities*" includes school liaison police officers.

School Property and Equipment as well as Personal Effects Left There by Students

School authorities may inspect and search school property and equipment owned or controlled by the school (such as lockers, desks, and parking lots), as well as personal effects left there by a student, without notice to or the consent of the student. Students have no reasonable expectation of privacy in these places or areas or in their personal effects left there.

The Superintendent may request the assistance of law enforcement officials to conduct inspections and searches of lockers, desks, parking lots, and other school property and equipment for illegal drugs, weapons, or other illegal or dangerous substances or materials, including searches conducted through the use of specially trained dogs.

Students

School authorities may search a student and/or the student's personal effects in the student's possession (such as purses, wallets, knapsacks, book bags, lunch boxes, etc.) when there is a reasonable ground for suspecting that the search will produce evidence the particular student has violated or is violating either the law or the District's student conduct rules. The search itself must be conducted in a manner that is reasonably related to its objectives and not excessively intrusive in light of the student's age and sex, and the nature of the infraction.

When feasible, the search should be conducted as follows:

1. Outside the view of others, including students;
2. In the presence of a school administrator or adult witness; and
3. By a certificated employee or liaison police officer of the same sex as the student.

Immediately following a search, a written report shall be made by the school authority who conducted the search, and given to the Superintendent.

Seizure of Property

If a search produces evidence that the student has violated or is violating either the law or the District's policies or rules, such evidence may be seized and impounded by school authorities, and disciplinary action may be taken. When appropriate, such evidence may be transferred to law enforcement authorities.

Notification Regarding Student Accounts or Profiles on Social Networking Websites

The Superintendent or designee shall notify students and their parents/guardians of each of the following in accordance with the Right to Privacy in the School Setting Act, [105 ILCS 75/](#):

1. School officials may not request or require a student or his or her parent/guardian to provide a password or other related account information to gain access to the student's account or profile on a social networking website.
2. School officials may conduct an investigation or request a student to cooperate in an investigation if there is specific information about activity on the student's account on a social networking website that violates a school disciplinary rule or policy. In the course of an investigation, school officials may request the student to share the content that is reported in order to allow school officials to make a factual determination.

Unless an exemption or extension applies, the failure to comply with the above requirements by October 15 of the current school year will result in the student's exclusion from school until the required health forms are presented to the District. New students who register after October 15 of the current school year shall have 30 days following registration to comply with the health examination and immunization regulations. If a medical reason prevents a student from receiving a required immunization by October 15, the student must present, by October 15, an immunization schedule and a statement of the medical reasons causing the delay. The schedule and statement of medical reasons must be signed by the physician, registered registered nurse, or local health department responsible for administering the immunizations.

Executive Summary Board of Education Meeting

DATE: January 7, 2021

TOPIC: IASA School for Advanced Leadership VI (ISAL VI) Training Request

PREPARED BY: Dr. David Russo

Recommended for:

- ☒ Action
- ☒ Discussion
- ☒ Information

Purpose/Background:

As discussed previously and in preparation for the scheduled transition of senior District leadership and with the goal of ensuring success of this transition well into the future, the following is a first step in the transition planning. As such, it was created to address the following goal areas:

1. Seamless transition of senior District leadership from Dr. Nasshan to Dr. Russo
2. Continuity of District systems and ongoing system development as needed, throughout the transition period
3. Ongoing support of the transition and “new superintendent” induction process, while maintaining consistency within the framework of the current District/Board of Education culture and expectations
4. Accountability relative to continued growth

Our professional organization, the Illinois Association of School Administrators (IASA), is putting together a new cohort for the IASA School for Advanced Leadership (ISAL), which will begin in April 2021. The cohort meets in the (IASA) office in Springfield. As you may recall, Dr. Nasshan completed her ISAL experience during her transition to the Superintendency and completed the program during her first year in the role. She speaks highly of the experience, especially for a new Superintendent. A key component of the ISAL program is the valuable training and professional development participants receive, relative to their instructional and District leadership practices. In addition, and as part of the accountability aspect of the ISAL program, participants are individually assigned a veteran superintendent “coach” for the duration of

the program. As part of this cohort the participant and the assigned coach collaborate between formal sessions. This program provides built-in accountability and formalizes the transition process by providing structure and specific leadership topics to debrief. The ISAL VI cohort begins this coming April and runs through June of 2022. The timing is perfect for in-depth leadership discussions, coaching, and planning specifically targeting the learning community in Lincolnwood School District 74.

Fiscal Impact:

This request is for the full ISAL VI tuition fee of \$5,500, plus travel, lodging, and meals for the two sessions in FY21. The total amount of this FY21 request is \$6,798.10. A request for expenses related to the final six sessions will be made in FY22.

FY21: \$6,798.10

FY22: Estimated on current rates: \$3,894.30

Total: \$10,692.40

Recommendation:

It is the Administrative recommendation to approve registration in the IASA School for Advanced Leadership VI (ISAL VI) cohort from April 2021 to June 2022 for Dr. David Russo, Assistant Superintendent for Curriculum and Instruction, as well as the FY21 expenses in the amount of \$6,798.10.

ISAL V Fellows Discuss the Program's Impact and Why Superintendents Should Apply for ISAL VI

By Jason Nevel
IASA Director of Social Media and Publications

Dr. Terri VandeWiele enrolled in IASA's School for Advanced Leadership (ISAL) in 2019 in a position familiar to many superintendents—on the fast track.

The demands of the job and her desire to support and care for her family consumed her life, pushing her personal well-being to the back burner.

"I had been so busy taking care of my school district, my family, including my parents, that I wasn't taking care of myself," says Dr. VandeWiele, superintendent of Silvis SD #34. "During ISAL, I discovered that I needed to be more mindful of what I was doing and why I was doing it."

Dr. VandeWiele was one of 25 graduates of the ISAL V cohort in August, earning her the distinction of being named an ISAL Fellow.

She encourages her peers to consider enrolling in the ISAL VI cohort because of the value the program adds to both your personal and professional life.

"It enhanced everything for me and allowed me to get through personal tragedy," VandeWiele says. "It also allowed me to be a better parent and a better leader."

Applications are now being accepted for the 18-month professional development program, available exclusively to IASA members. IASA's goal is to hold ISAL VI in person, in Springfield, beginning April 8. Completed applications must be submitted by Friday, February 5, 2021.

Life Changing Professional Development

Since its inception in 2010, ISAL has produced 123 graduates, many of which have described the experience as "life-changing." Each cohort typically includes 25 participants.

What makes the program unique, according to one of its facilitators, Dr. Gary Zabilka, is that participants are partnered with a coach and create personal and professional growth plans. Each of the coaches are current or retired superintendents who graduated from ISAL.

In addition, Dr. Zabilka says, the connection and networking that comes with being in an 18-month program with your peers from across the state creates bonds that last a lifetime.

Throughout the eight weekends participants gather in Springfield for learning sessions, a social aspect is built in that includes nightly dinners where participants network and get to know each other better.

"The program is designed to challenge your professional development and make you think a lot about what you are doing to elevate achievement in your schools, but also what you can do for yourself, so you can become a stronger leader," says Zabilka, a retired superintendent, IASA Field Services Director and ISAL I Fellow. "I have seen more than 100 superintendents go through the program and can say with confidence that the people I have seen come in, and the people who come out, are different."

Larry Maynard, superintendent at Oakwood CUSD #76, says he applied to ISAL V in search of an opportunity to challenge and grow him professionally and personally. He had no idea how big of an impact ISAL V would have.

"The relationships, the resourcefulness and the realness that I experienced through the quality of people and leadership and coaching—I am forever grateful," Maynard says.

Each ISAL cohort member participates in enriching and collaborative learning sessions aligned to leadership standards. Speakers are also brought in to address the group. The coach and ISAL participant are given the opportunity to meet outside of the formal cohort gatherings.

The training centers around the following five lenses:

• Vision • Coherence • Change • Capacity • Culture

A ceremony is held upon completion of the program and graduates earn the honor of being named an ISAL Fellow.

"It's a special distinction, and we have found that people who earn the title become more marketable," Dr. Zabilka says.

Transformational Growth

The program is also led by Dr. Nancy Blair, Professor Emerita of Doctoral Leadership Studies at Cardinal Stritch University in Milwaukee, Wisconsin. Dr. Blair is a sought after consultant in leadership formation and sustainability.

What attracted Dr. Blair to ISAL initially, and has made her return to lead each cohort over the past 10 years, is an unwavering commitment from IASA's executive director, Dr. Brent Clark, to superintendent professional development.

She describes ISAL as a once in a lifetime opportunity for people to step away from the normal way of doing and being.

"It's really become an extraordinary opportunity for transformational growth," Dr. Blair says. "To me, the distinction between change and transformation is change is trying to fix something that is broken. Transformation renews what is already there and good and uncovers the possibility people have in themselves."

For Dr. VandeWiele, the lessons she learned during ISAL V carry with her.

"The beauty is it doesn't end when the program ends, it's actually just the beginning."

PRESSPlus Comments

PRESSPlus 1. Student activity funds are established to account for money used to support the activities of student organizations and clubs, e.g., homeroom, yearbook, class year, choral or band group, class projects, student clubs, student council, and student-sponsored bookstore. 23 Ill.Admin.Code §100.20. Student activity funds are under the school board's control, giving it a fiduciary responsibility to safeguard them along with district assets. In contrast to *fiduciary funds*, the board, superintendent, or other district employees have direct involvement in how *student activity funds* are spent or attained. And, unlike fiduciary funds, student activity funds must be reported as part of a district's Educational Fund for its annual financial reporting and budget, in accordance with *Governmental Accounting Standards Board Statement No. 84*. 23 Ill.Admin.Code §§100.80(e), 100.85. **Issue 106, November 2020**

PRESSPlus 2. Updated to incorporate 23 Ill.Admin.Code §§100.20, 100.80 and 100.85 (establishing *fiduciary* funds as a category of funds separate from *student activity funds*, for which a district has custodial responsibilities). **Issue 106, November 2020**

PRESSPlus 3. Student activity funds are under the school board's control, giving it a fiduciary responsibility to safeguard them along with district assets. In contrast to fiduciary funds (see PRESS Plus Comment 3), the board, superintendent, or other district employees have direct involvement in how student activity funds are spent or attained. And, unlike fiduciary funds, student activity

funds must be reported as part of a district's Educational Fund for its annual financial reporting and budget, in accordance with Governmental Accounting Standards Board Statement No. 84. 23 Ill.Admin.Code §§100.80(e), 100.85. Issue 106, November 2020

PRESSPlus 4. Fiduciary funds are funds "received from an independent, outside source in which the school board is acting in an administrative capacity." Unlike student activity funds, where "[t]he school board, superintendent, or district employees have direct involvement with the decisions of how the funds are spent or attained," a district has no control over how fiduciary funds are spent or raised. 23 Ill.Admin.Code §§100.20, 100.80, and 100.85.

See 23 Ill.Admin.Code §100.85 for the specific characteristics and permitted activities of a fiduciary fund. Boards must take a number of specific actions for fiduciary funds that are delegated to the superintendent or designee in this policy and align with IASB's *Foundational Principles of Effective Governance*, at www.iasb.com/principles_popup.cfm. 23 Ill.Admin.Code §100.85(b). Boards should consult their local auditors for guidance on whether a particular fund should be classified as a student activity fund or fiduciary fund.

TOPIC: Fall 2020 MAP Administration Assessment Report

Purpose/Background:

To provide the Board of Education with a summary of information regarding Lincolnwood School District 74 student achievement as measured by the Northwest Evaluation Association(NWEA)/Measure of Academic Progress (MAP) during the fall 2020 administration window.

National NWEA/MAP Research Brief

The ensuing presentation references a national evaluation of student achievement conducted by NWEA/MAP of 4.4 million in-person and remote test takers this fall. The research piece is entitled *Learning during COVID-19: Initial findings on students' reading and math achievement and growth - November 2020*. The team of researchers attempted to answer the following fundamental questions:

- *How did students perform this fall relative to a typical school year (specifically, fall 2019)?*
- *How has student growth changed since schools physically closed in March 2020?*
- *How did observed fall 2020 achievement compare to NWEA's projected scenarios?*

Equivalent Data Comparisons

To make a comparison of fall 2020 MAP performance to that of last year or any of the past five years, one must consider how a student's RIT score is evaluated based upon the number of instructional weeks the student has experienced at the time the test is administered. For example, the mean math performance of 7th grade in-person students was a RIT score of 231, which compares very consistently with the 5-year fall District mean of 232. However, that 5-year mean is calculated based on 4-weeks of instruction whereas the fall 2020 score is based on 8-weeks of instruction. Therefore, the fall 2020 score might have a national percentile ranking lower than what that score might mean when evaluated compared to when the MAP test is traditionally administered each fall.

The MAP test was administered later in the fall of 2020 to both in-person and remote learners. This timeline allowed students the opportunity to adjust back to school from the spring and to get used to COVID protocols and remote learning. It should be noted that the test was still administered in what NWEA/MAP considers to be the fall administration window. In order to account for variance in instructional weeks, NWEA/MAP has developed the Achievement Status and Growth (ASG) Calculator. This tool allows one to input relevant data to determine the percentile ranking for varying levels of RIT score performance in a more equivalent way. This tool was used to compare fall 2020 performance to that of the previous five years.

Fundamental Questions

The data for Lincolnwood School District 74 presented in the slide deck included in the Board packet addresses the following fundamental questions:

- *How did the mean performance of Lincolnwood School District 74 students compare to students nationally in fall 2020?*
- *What were the differences between in-person and remote learners' performance in fall 2020? (remote testers are not necessarily remote learners - students on quarantine)*
- *How did students' performance in fall 2020 compare to five-year District trends?*

Overall Findings

The NWEA/MAP research brief and the performance of Lincolnwood School District 74 students both showed reading scores to be similar with years past while math performance was lower at most grades.

The data suggests, on the whole, Lincolnwood School District 74 students did not experience a precipitous COVID "slide" since the pandemic created restrictions for schools in mid-March. As we move forward, teachers will need to continue to evaluate students' individual mastery of grade level skills and standards as they always do. There is continued necessity to have conversations across grade levels and buildings to address the best way to pace and sequence the curriculum.

It should also be noted that this report is meant to provide the Board with an overall analysis of student performance. The instructional teams in each building, led by our Principals, have been examining the data in finer detail to identify those students whose performance varies significantly from the mean to determine differentiated supports, intervention or enrichment that would best meet students' needs.
