

Supporting Students' Long-Term Success

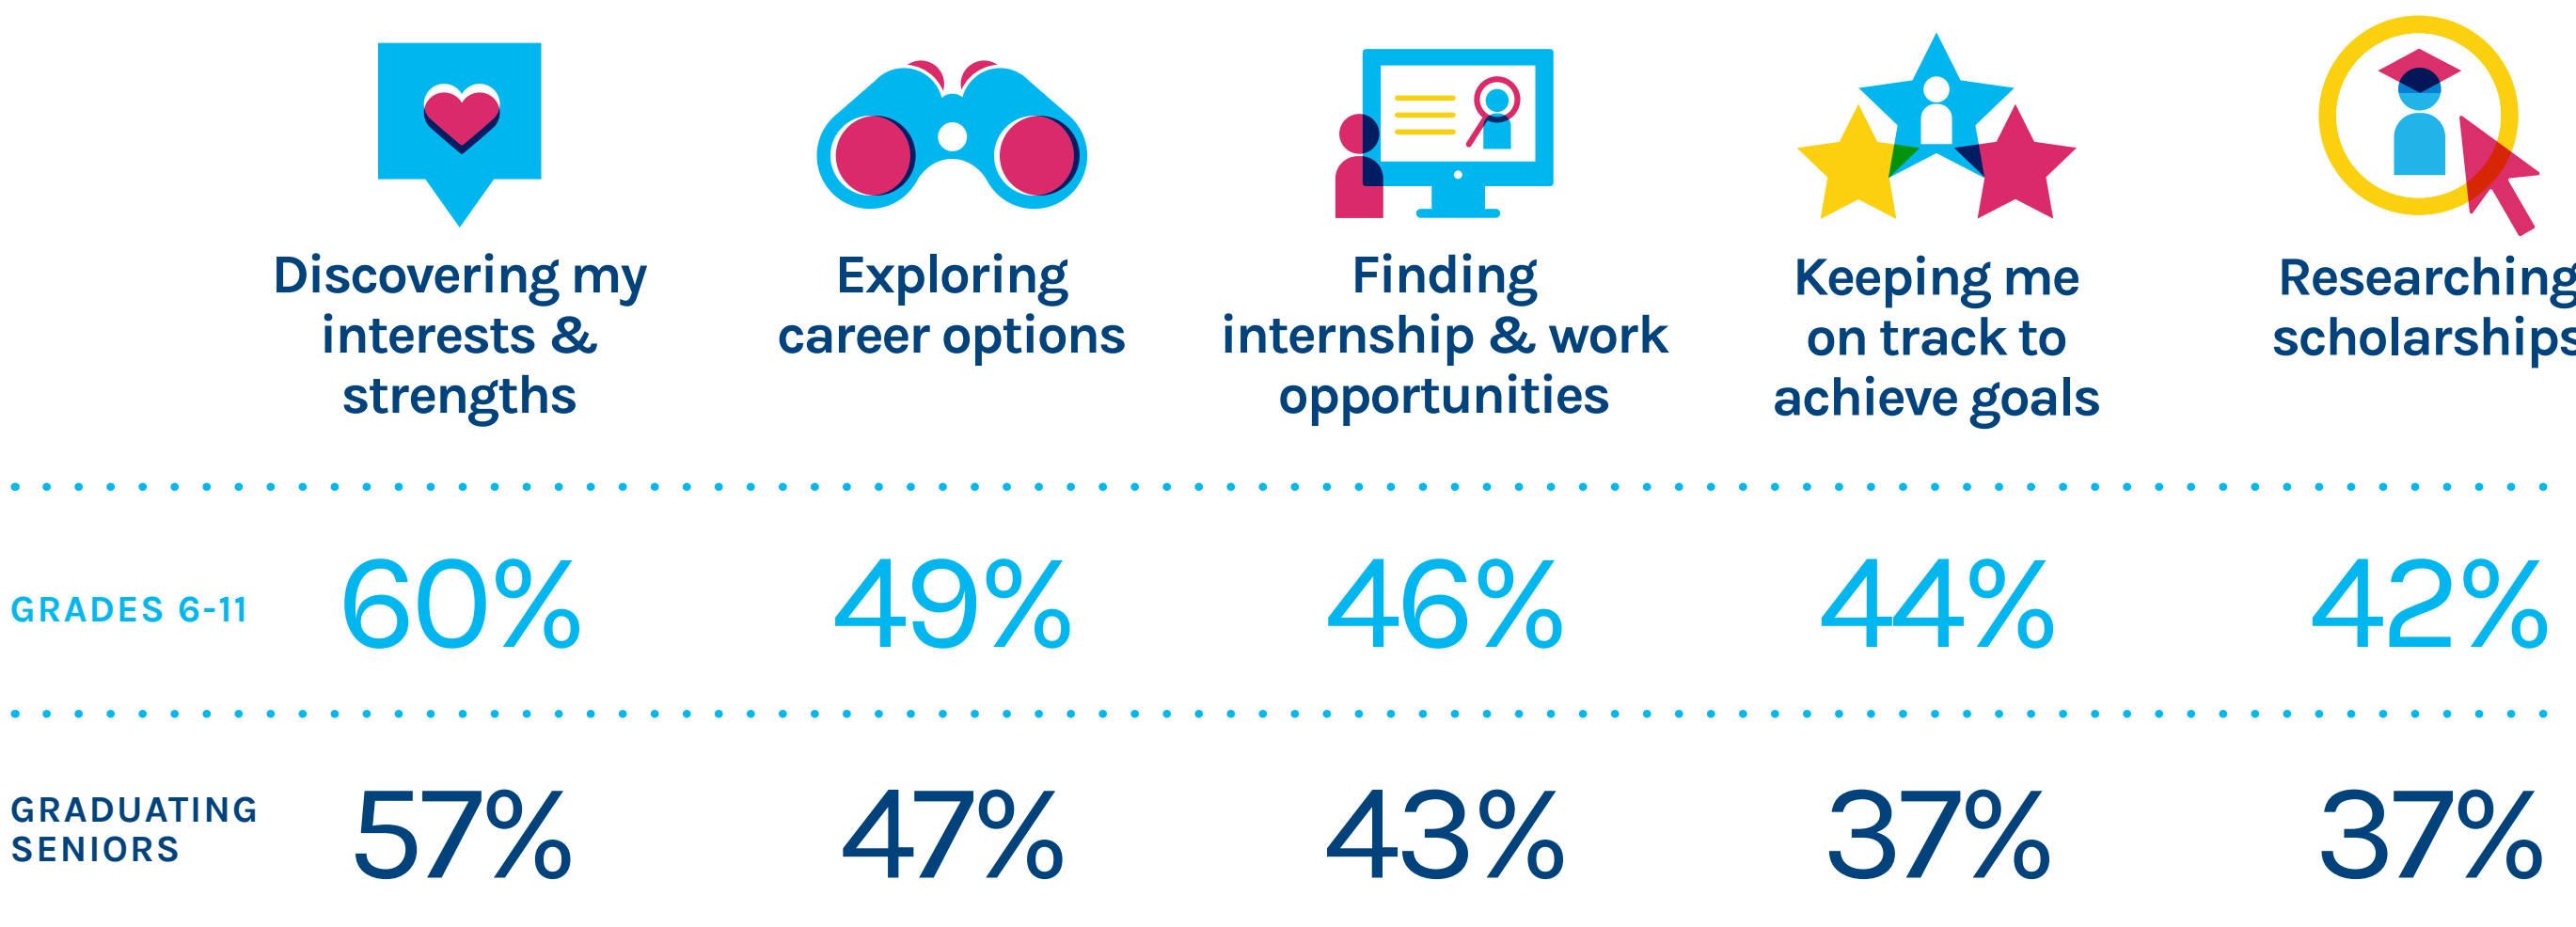

The 2021 Naviance Student Survey asked 15,000+ U.S. middle and high school students to share their perspectives on college, career, and life readiness.

The results reveal the biggest areas where more support is needed from K-12 schools and districts to prepare students for postsecondary success.

Students want more support exploring their interests and strengths

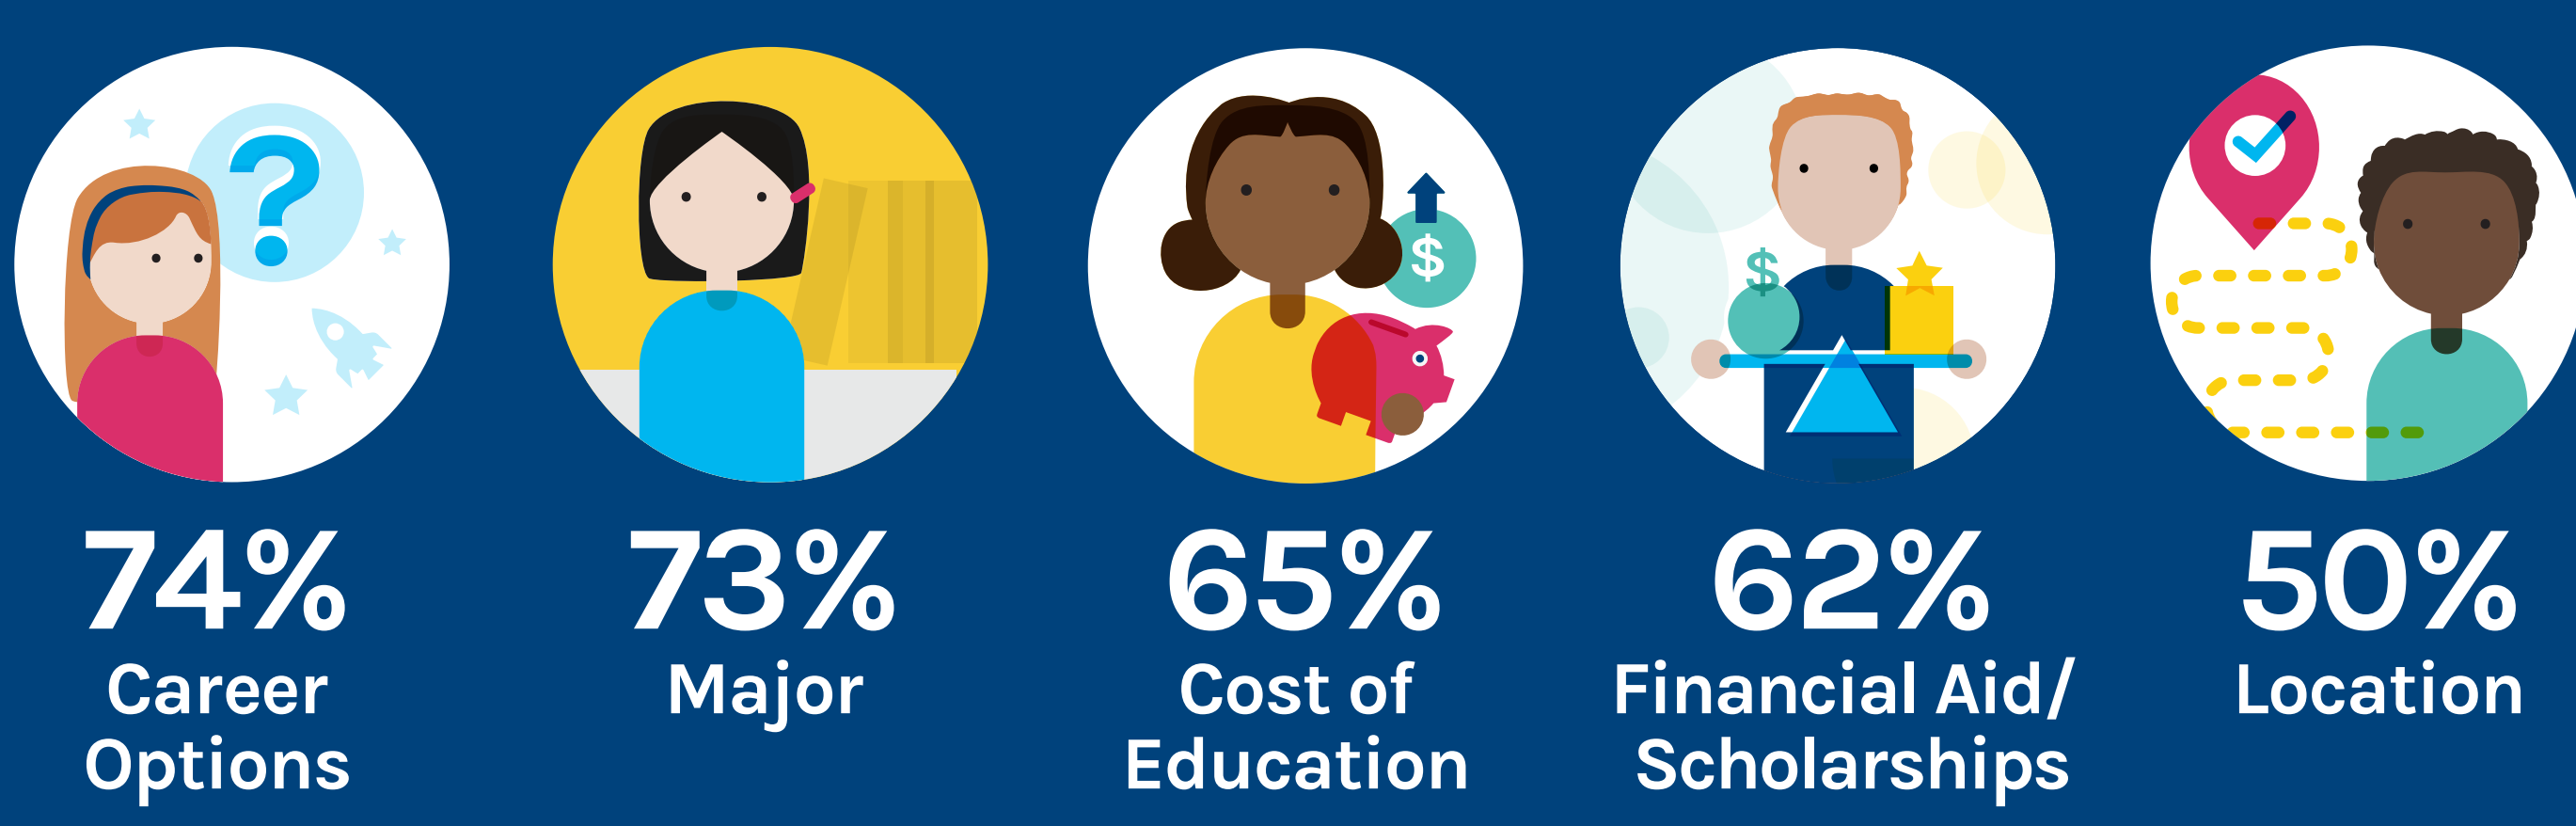

Top 5 Areas Where Students Wish Their School Provided More Support

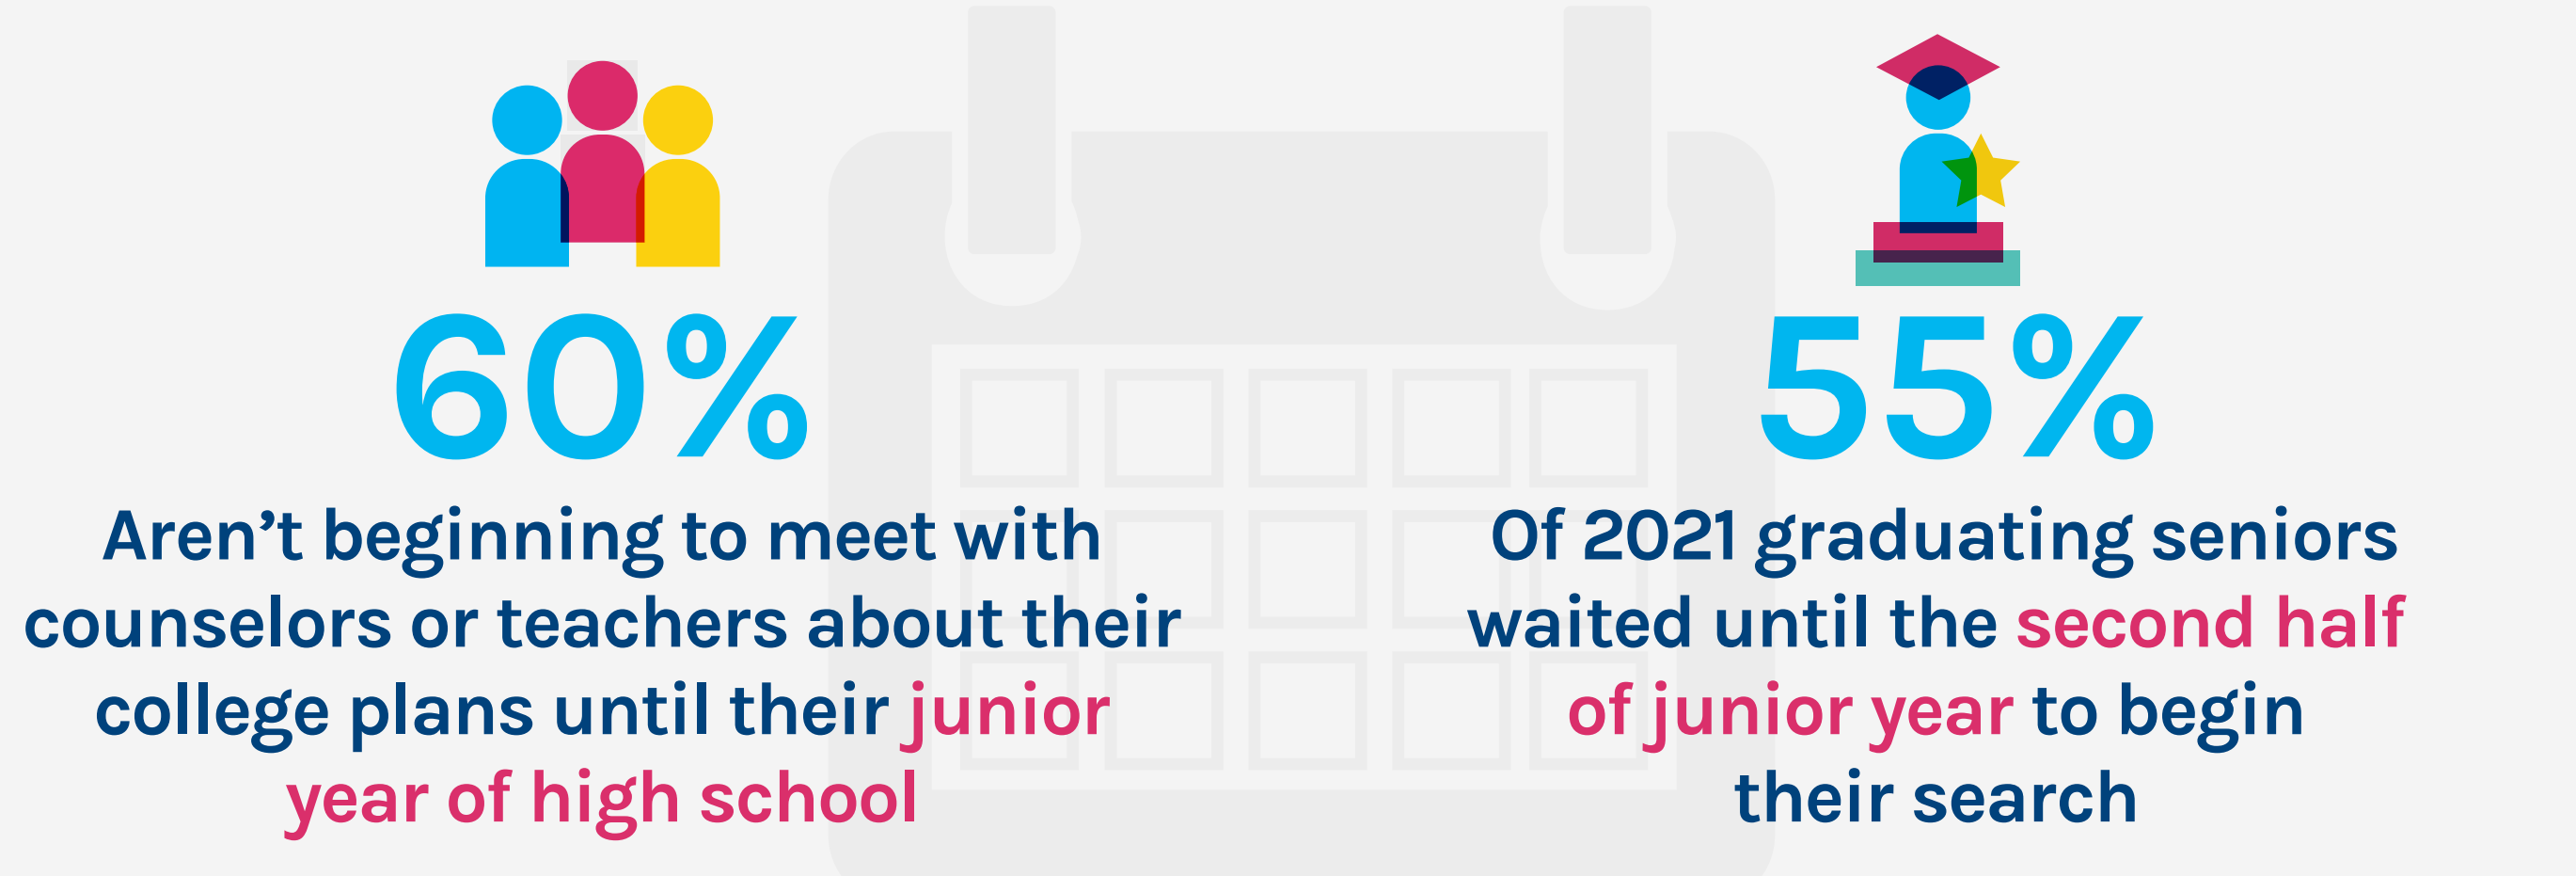

Students consider **Career Options** and **Majors** as the most important factors when making application and enrollment decisions

Top 5 Areas Students Say Are Important in Their College Search and Decision

Percentages represent those selecting "Very Important"

For students pursuing college, they are starting their college search **later than ever**
